

TLS2200[®] THERMAL LABELING SYSTEM

\$795⁰⁰

Brady's TLS 2200[®] Thermal Labeling System v4.0 offers a rugged, portable, and easy-to-use labeling solution – now with even more features. With crisp, thermal-transfer quality printing and a variety of durable materials, you can create custom labels for the most demanding applications including product bar code ID, electrical and datacom marking, laboratory ID, security ID, and more.

TLS2200 Features

- Rugged Industrial Design – Tough, drop-tested construction
- Prints over 500 labels between battery charges
- Thermal transfer print mechanism – 203 dpi resolution
- Labels up to 2" wide (1.8" impression width)
- Print length up to 54"
- Adjustable for 6 different widths of labels
- Built-in industrial label cutter
- Lettering in 19 sizes – from 4 to 72 point
- 10 Bar Code symbologies
- Two line liquid crystal display (LCD) 16 characters wide

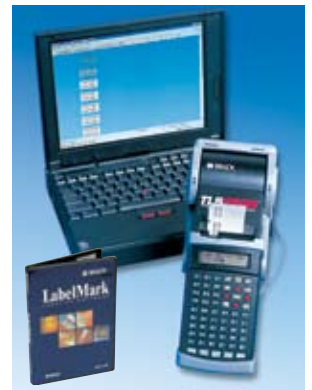

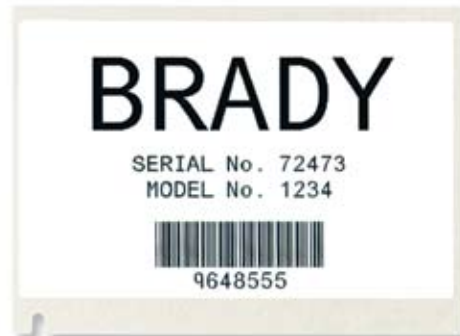

New Version 4.0 features

- Increased speed – Nearly 100% faster data processing and printing
- Clearer graphical display – Even in low light conditions, the increased screen resolution and contrast make on-screen text easier to read
- Sleep Mode – Extends battery life, increases productivity
- PC connectivity – With Brady LabelMark[™] Labeling Software, users can design labels on a PC and print directly to a TLS 2200 printer

TLS2200 Printing System
